

COURSE OVERVIEW

OFFSHORE CRANE OPERATOR STAGE 2 REASSESSMENT – BS7121 PART 11

The Stage 2 Offshore Crane Operator Re-Assessment course is used to assess the continued competence of offshore crane operators. BS 7121 Part 11 states that an offshore crane operators' competence should be re-assessed every 2 years.

Reassessment can be undertaken using an offshore crane or simulator to complete a range of lifts safely within the offshore environment. This course provides participants recertification and currency for skills and knowledge required to continue to operate an offshore crane in a safe and efficient manner.

PERFORMANCE CRITERIA

- Plan work
- Crane pre-operational checks and maintenance
- Wire rope inspection and maintenance
- Safe rigging practices and calculations
- Offshore crane safety devices and dynamic factors
- Safe working loads and load motion indicators
- Conduct deck lifts using an offshore crane or simulator.
